### New Way to Exterminate Rats.

Dr. M. M. Hart says if the people will use his method of exterminating the rats it will be but a short while until thousands of them are gotten rid of. It is a simple and inexpensive method. Here it is:

Fill a tub of water about half full or more and spread a good thick layer of cotton seed over the water, leaving some five or six inches of the tub unfilled, then put a board from the ground up to the top of the tub so the rats can climb up and get into the cotton seed. The result is that Mr. Rat goes to his long home in cotton seed land never to return to his kinmen.

Dr. Hart has tried this means of getting rid of rats and has found it very successful. In one night he caught twelve and another nine.—Crowell News.

## IS YOUR HEALTH GRADUALLY SLIPPING?

Interesting Experience of a Texas Lady Who Declares That if More Women Knew About Cardui They Would Be Spared Much Sickness and Worry.

Navasota, Texas.—Mrs. W. M. Peden, of this place, relates the following interesting account of how she recovered her strength, having realized that she was actually losing her health:

"Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did some time ago when I found myself in a very nervous, run-down condition of health. I was so tired and felt so lifeless I could hardly go at all.

"I was just no account for work. I would get a bucket of water and would feel so weak I would have to set it down before I felt like I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish.

"I was . . . nervous and easily upset.

I couldn't rest well at night and was . . . just lifeless.

"I heard of Cardui and after reading I decided I had some female trouble that was pulling me down. I sent for Cardui and began it . . .

"In a very short while after I began the Cardui Home Treatment I saw an improvement and it wasn't long until I was all right—good appetite, splendid rest, and much stronger so that I easily did my house work.

"Later I took a bottle of Cardui as a tonic. I can recommend Cardui and gladly do so, for if more women knew, it would save a great deal of worry and sickness."

The enthusiastic praise of thousands of other women who have found Cardui helpful should convince you that it is worth trying. All druggists sell it.

## He'll Put You On the Map

A few miles from a large and thriving city is a little town that can't even be reached by the steam railroads. Yet on a single day last summer enthusiastic buyers from almost every state in the Union sought it out and paid it a visit. What's more, on that single day they spent, in that little hamlet, one hundred and fifty thousand dollars!

What's the answer? Pure-breds. That town is famous as a pure-bred center—to cattle men it's one of the most important spots on the map,

Pure-breds can do as much for your community. They offer the easiest, quickest and most profitable program for building up a community—a program which has pulled whole counties out of the rut, put towns on the map and brought financial independence to thousands of farmers. It is becoming clearer every day that the future of cattle raising as a profitable industry depends upon an economical operation possible only with pure blood. The beef growers who survive in the face of high feed

costs, high freight rates, scarce labor and tight credit will be the pure-bred farmers. And the communities that are ready to supply the breeding stock are sure of a lasting prosperity. Yours can be one.
